

THE WORLD OVER

CHARLES MATSON FOUND DEAD

TACOMA, Wash.—Messed federal, state and local authorities turned loose their full force on a man in a drive to capture the kidnaper of Charles Matson a few hours after the search for the 10-year-old Tacoma boy ended in tragedy. A 19-year old Everett youth stumbled on Charles' battered, nude body shortly before noon on Monday in a clump of snow-covered brush. The head was crushed, the teeth broken, and the body covered with blood and bruises.

CITY COUNCIL UNSEATED

Calgary will have a civic by-election within the next few weeks as a result of a judgement handed down by Hon. Mr. Justice W.C. Tves in Supreme court on Monday of this week granting a petition to unseat Ald. C. R. Rowe, Social Credit councillor. It was learned that unseating would take effect immediately.

Declaring Ald. Rowe unseated because he had a contract with the city for the servicing of snow-clearing trucks at the time of the election, His Lordship also directed that the council was so created should be filled by a civic by-election, the date of which will be set later.

HOCKEY NOTES

Carbon Wins From Three Hills

The Carbon intermediate team played at Three Hills on Wednesday, January 6th, and won by a score of 7-4. According to the spectators, the game was fast and the Carbon team displayed some fine combination work which won the game for them.

Line-ups were as follows:

Three Hills—1. Hanna, A. Shea, L. Howe, Witter, Quigley, Helton, Holmstrom, Bell, S. Shea, Nicholson and Jealous.

Carbon—1. Halstead, I. Trenprier, C. Reed, S. Poxon, B. Oliphant, N. Nash, J. Mathers, W. Skerry, S. Matton and P. Lemay.

Three Hills goals were scored by Jealous, Quigley, Witter and Helton.

Carbon goal gettters were: Mathers, 3; Nash, 1; Lemay, 2; Skerry, 1.

Acme Juveniles Win From Carbon

A Carbon team composed of players sixteen and under met the Acme Cubs in a hockey game at the local rink on Saturday, and went down to a 5-4 defeat after ten minutes of overtime.

Acme and Carbon in Tie Game

The return game of the juveniles was played at Acme on Monday and the result was a tie game, 6-0, neither team being able to score.

PROVERBS REVISED

Every picture tells a story.

The darkest hour is just before the dawn.

What the eye doesn't see the foot tries over.

Where singleness is bliss, 'tis folly to be wive.

There are none so blind as those who face strong headlights.

NEW VILLAGE BY-LAW AFFECTS STORAGE OF INFLAMMABLES IN VILLAGE LIMITS

To Provide For Storage of Inflammable Material Within Village

At the meeting of the Council of the Village of Carbon on Wednesday, January 6th, By-Law No. 54, to provide for the storage of Gun Powder, and other combustible material within the Village of Carbon, was given first and second reading, and will be passed at the next meeting of the council.

Under the terms of the new By-Law citizens can store above ground only one barrel of coal oil, crude oil, gasoline, naphtha, etc., on their premises.

An article also deals with the storage of explosives, which must not be kept in a wood container near any buildings.

Another part of the By-Law prohibits the setting of fires to burn rubbish in the Village unless some competent person is in charge.

THE TWENTY GREAT SHORT STORIES OF THE BIBLE

One of the imperishables of life is the part that religion plays in human affairs. Wherever man has existed there is some sort of religion. Whether he practices the tenets of his faith or not, every man needs the solace of religion.

The bible is the largest selling book in the world today. It is one of the greatest collections of short stories known. So rich is the bible in literary treasures that any attempt to list the best stories in it leads to greater difficulties of omission.

This list was compiled by James S. Stevens in his critical volume, *The English Bible*.

- Joseph, Gen. 37-49, 2.—Balaam & Balak, Num. 22-24, 3.—The Capture of Jericho, Joshua 6, 4.—Joseph's Dream, Judges 11, 6.—Samson Judges 14-16, 7.—Ruth, 8.—David and Jonathan, 1 Samuel 18-30, 9.—Timothy and the Prophets of Baal, 1 Kings 18, 11.—Naboth's Vineyard, 1 Kings 21, 12.—The Ascension of Elijah, 2 Kings 2, 13.—Elisha, 14.—The Three Hebrew Children, Daniel 3, 15.—Daniel in the Lions Den, Daniel 6, 16.—The Good Samaritan, Luke 10, 25-37, 17.—The Prodigal Son, Luke 15:11-32, 18.—The Lamb of God, John 1:1-9, 19.—The Shipwreck of Paul, Acts 2.

"What's that smell I smell?" enquired the lady from the city as she sniffed the air.

"That's fertilizer," answered the farmer.

"For the land's sake?" exclaimed the lady.

"Yes, ma'am," assented the farmer.

VILLAGE COUNCIL MEETING

The first meeting of the Village Council in 1937 was held in the City hall on Wednesday evening, January 6th with all the councillors present.

By-Law No. 54, re storage of explosive material within the Village limits, was given first and second reading.

Alex Reid was appointed Return Officer for nominations, which will be received the first Monday in February.

The only other business attended to was the applications for relief and payment of bills.

LETTERS TO THE EDITOR

Carbon, Alberta, January 9, 1937

Editor, The Carbon Chronicle.

Dear Sir:

I wrote a letter about two weeks ago for insertion in your paper, which you kindly printed.

This week the letter was criticised by T.J. King. I would like to say, I wrote the letter for the purpose of creating a public opinion in regard to the supplying of the unfortunate with the necessary seed and grain etc., knowing that the municipalities were dilatory in the matter, or perhaps could not make any headway with their application for seed and grain, etc., and realizing that time is passing with wonderful rapidity, and knowing there existed a Social Credit group in Carbon, I thought here was an organization which might be able to take up our case with those in authority to deal with the same and get in touch with the M.L.A. who would interest himself in our behalf.

My firm conviction is that, had this matter been taken up before, grain and seed could have been purchased for a far less figure than what the price is today, thus saving the taxpayers of the municipality thousands of dollars.

I am surprised at our friend King being afraid we are appealing to the wrong organization. They are the organization I believe in closest touch with our provincial government who in conjunction with the municipalities and the Federal government are supposed to look after our welfare in respect to seed wheat etc.

I notice, friend King, that you allude to the S.C. Group and Aberhart Social Crediters, and there being only seven members in attendance at the group meeting. I care not whether there were one or a hundred present as long as our policy is brought before the proper authorities. The majority of the group, I understand, have taken the matter up.

Before concluding this letter I would like to note a few remarks on friend King's allusions to Aberhart, Foster and Social Crediters.

Social Credit is no myth. If you will understand intelligently and probe into the matter of the \$600,000 loan, you will find it came from the Bank of Canada and at 3%, the lowest interest ever negotiated in the province, a saving to the province of between \$150,000 and \$180,000 compared to what the government have been paying for similar amounts. One half of the \$600,000 was a direct contribution, the other half at 3% interest.

You say thanks to Mr. Manning re loan of \$600,000. This is not so. Rather than bow the knee to Manning and the financial abhors who wanted to establish a loan Council which would automatically take away from this province the right to say how the loans, if made were to be spent. This government of the province rather than be bound hand and foot and finger, laid the onus on the Federal government and would not consent to their conclusion that in interest must come down.

It will take too long to answer fully. Mr. Editor, the letter our friend King wrote, but he is right in saying the bottom of the old treasury coffers is entirely pushed out but in place of same we have a new coffers bulged by loans of Social Credit, intervention to raid by financial racketeers, grafters and politicians.

Surely the articles friend King is going to write on will not turn out to be much to the chagrin of the Calgary Board of Trade who felt the Professor of Economics, Dr. Stephen Leacock, expecting him to belittle the present provincial government and

CARBON MUNICIPAL BODY URGES GOVERNMENT GIVE HUNDRED PER CENT SEED

Urges Government to Assume Full Cost of Grasshopper Campaign

The result meeting of the Council of the Municipal District of Carbon was held in the Municipal office, Carbon, on Tuesday January 5th with all councillors present.

Routine business of accounts, relief etc., was dealt with and the council approved the food relief plan.

It was moved and adopted that the following resolution be passed and a copy forwarded to Messrs. E. P. Foster, M.L.A., I. M. McCune, M.L.A., and W.E. Cain, M.L.A.:

"This council hereby recommends that the Government of Canada, in the above mentioned session of Parliament be and are hereby asked to support an amendment to section 16, sub sec. 21, of an Act to provide Agricultural Relief to necessitous farmers in order that applicants who have been laid in in connection with seedling amounting to three hundred acres or less, be provided with 100 per cent of the seed required."

It was also adopted by the council that the "secretary-treasurer be and is hereby authorized to forward a request to the M.L.A.s for consideration of Gleichen and Didsbury requesting that the government be asked to assume the full amount of grasshopper seed built used in the campaign during the past three years."

THE WORLD OF WHEAT

H.G.L. Strange

Importing countries have bought less wheat since the depression than they did in good years.

For five years prior to 1929 the average yearly purchases of wheat by importing countries were estimated at 754 million bushels.

"These purchases have gradually decreased, for 1934-35 only 577 million bushels were demanded, a decline of approximately 31 per cent.

Canada, unfortunately, was the chief loser, her sales falling from an average of 309 million bushels per annum for five years prior to 1929 to 166 million in 1935, a decline of 46 per cent.

Argentina suffered 15 per cent more sales actually increasing during the depression years from an average of 151 million for five years before 1929, to 183 for the year 1934-35, or an increase of 17 per cent.

What did Canada do to lose more than her share of international sales? What did Argentina do that enabled her to win new markets?

There would seem to be room here for careful investigation and study.

Fortunately, times now appear to be somewhat on the mend, for Mr. Brownell estimates the importing countries this year will demand 588 million bushels, and that Canada's share of these sales will be about 216 million bushels.

Prices have tended to be raised by Talk that Germany is endeavouring to secure British credits with which to buy Empire wheat—Canadian Wheat Board issues report showing Government holdings greatly diminished—Indian wheat shipments show no signs of increasing—European countries, particularly Italy, still purchasing steadily—Some demand appearing from the Orient.

Expectations Argentine corn will be large and of fair quality—Criticism increasing from European wheat buying countries about increasing prices—Exported Manchuria will import less flour than in previous years—Reported that good wheat crops are in prospect in Italy and India.

GLEICHEN LOSES ONE HOTEL

One of Gleichen's hotels was closed on New Year's Day, because the last census showed a decrease in population below the number required to entitle the town to two licenses. More than 500 population is required to secure two hotel licenses in a town.

who, instead, wound up by saying, "Gentlemen, two and one-half per cent is a noble interest."

(Concluded Next Week)

MAYOR S. J. GARRETT IS RETIRING COUNCILLOR

Monday, February 1st has been set for nomination day in the Village of Carbon, name a citizen to act as councillor for the next three years, to fill the vacancy on the council caused by the retirement of Mayor S.J. Garrett, whose three year term has expired.

It is confidently expected that Mayor Garrett will again contest the seat on the council, although at the present time we have not heard of any public spirited citizen who will enter the fight against him.

FORECAST FOR NEW YEAR

We are so close to a situation at times as to be quite unable to see the true significance of events. A silver half-dollar, if held close enough to our eye, can completely block our vision. Perhaps some of us are as busy making our "dollar a day" that we have not fully appreciated the fact of events carrying us on to new heights of prosperity and opportunity in Western Canada at the present time.

We are surrounded and comforted by hills and valleys, but if we emerge from the cap to come out on a broad plateau, the rising peaks reveal a grand panorama and a promise of new heights and glories ahead. Perhaps, in a business sense we have reached this vantage ground where we may view with rising hopes the way ahead for 1937.

THE WHEAT SITUATION

During the past year international trade for Canada has reached the highest levels since 1929. Our exports to the United Kingdom and the United States have accounted for most of this under the favorable terms now existing.

INDUSTRIAL EXPANSION

During the past year international trade for Canada has reached the highest levels since 1929. Our exports to the United Kingdom and the United States have accounted for most of this under the favorable terms now existing.

DIVIDENDS OF CANADIAN CORPORATIONS

During 1935 these have been higher than in any other year with the exception of 1929 according to a compilation by the "Financial Post." This means an increase of some thirty millions over 1933. Did we hear someone a year or two ago say something about "bird" up purchasing power?" Look over the dividend lists for December and check up on the pretty nurse and the Christmas shopping.

STOCK MARKET RECOVERY

This provides further evidence of returning confidence. The old bluff of 1937 has completely disappeared. There will, no doubt, be an orderly recovery during the winter showing up in the form of new stock market recoveries.

THE MINING SITUATION

New sources of wealth and finds to consume have been opened by the quick development of our mines and in the rise of the price of gold. 1937 will see new fortunes made, especially in the Canadian northwest. Opportunity knocks loudly on our own back door.

OIL IN ALBERTA

The longed-for crude oil in Turner Valley has been discovered within the last two or three months. This is one of the most important discoveries in the history of Alberta, shutting out imports from Montana.

HEAVY ORDERS FOR MUNITIONS

War material orders are expected from the British government after parliament meets in January. Already the Canada Car and Foundry have re-opened their large Fort William plant.

THREE HILLS HOCKEY BOYS WIN HARD FOUGHT GAME FROM CARBON; 5-3 SCORE

Although playing a fast brand of hockey, the Carbon intermediate team went down to defeat at the hands of the Three Hills intermediate at the local rink on Tuesday night.

Carbon opened the scoring when Mathers scored the puck past Antio. Shea then got the score a few minutes later and Witter put the visitors one up before the bell sounded the end of the first period.

Three Hills opened up strong in the second period and after about ten minutes of play Jealous scored, making the score 2-1 in favor of Three Hills. Shortly after Trenprier converted for Carbon in a lane effort and the second period ended with the score 4-2.

Three Hills.

Strengthened by Norman Nash who was late in arriving, the Carbon boys went into the third period with the best of intentions, but Witter broke away for Three Hills, when his team scored the last goal of the game, 5-3. Three Hills displayed defensive tactics in the third period, but the score was 5-3 in favor of the visitors.

Line-ups were as follows:

Three Hills—W. Antio, F. Emney, J. Emney, R. Howe, G. Jealous, Witter, E. Shea, A. Shea, I. Hanna, C. Halstead, T. Trenprier, C. Reed, Cliff Gordon, Jack Mathers, W. Oliphant, N. Nash, R. Lemay, F. J. Mathers, W. Skerry, S. Matton and P. Lemay.

Medical Officer: "Hm, not so well today. Did you give him the medicine?"

Nursing Sister: "Yes, sir, but he would only eat half of it."

plant for the manufacture of airplanes.

EXPANDING EMPLOYMENT

Our relief lists are shrinking. Men are gradually being absorbed back into industry and farming.

INCREASING PRICES

The steel industry recently laid the way with a list of advances ranging from one to four dollars per ton. In the paper field, newsprint and higher grade bonds have advanced, while sulphate bonds and book paper prices are firm for a limited period.

REDUCTION OF INTEREST RATES AND LIQUIDATION OF OLD DEBTS

This has come about largely on a monetary basis between debtor and creditor, with a view to easing the channels of distribution and stimulating the economy.

INDICATIONS OF CLOSER CO-OPERATION BETWEEN DOMINION AND PROVINCIAL GOVERNMENTS

National Finance Council and Dominion Provincial Conferences are working for closer cooperation between Federal and Provincial governments. As Dr. Leacock has pointed out, we must all join hands and work our problems as a united nation if we would hope to enjoy the fullest measure of returning prosperity.

POLITICAL ACTION INDICATED ALONG THE FOLLOWING LINES

- (a) Extension of the present Dominion Housing Scheme to encourage the building of homes on a wholesale scale.
- (b) Possibility of a new immigration scheme.
- (c) A really serious attempt to balance Dominion and Provincial budgets.

OVERHAULING

If you are putting away a car for the next three months drive it in and let us give it a complete overhaul.

MODERN EQUIPMENT enables us to turn out exacting work at provincial code prices—you cannot get it done cheaper in the city.

Mrs. Bruce Ramsay entertained the members of the bridge club at tea on Monday afternoon.

The Red Arrow Transit moved the household effects of Mr. Aaron Klassen to Edmonton on Monday.

Mr. and Mrs. J. H. Oliphant motored to Calgary on Tuesday.

The Lady Roberts Chapter L.O.D.E. held their first meeting of the year on Monday evening at the home of Miss Helen Mathers, when the nomination of officers took place.

Mr. and Mrs. Aaron Klassen left on Wednesday morning for Calgary where they will remain for a few days before going on to Edmonton where they will make their home in future.

High winds with some snow on Tuesday night have caused some of the roads to drift over, disrupting the traffic.

A. Melville Anderson, sight specialist, Calgary, will make his next visit to Carbon, at McKibbin's Drug Store on Tuesday, January 19th, morning only.

The Junior W.A. held their annual meeting in the rectory of the Anglican church on Monday night and the following officers were elected: President, Mrs. J. Atkinson Jr. Secretary, Miss Sylvia Atkinson. Treasurer, Mrs. Frank Emery. Dorcas Secretary, Miss Vera Atkinson.

CARD OF THANKS

Mrs. Alex Reid Sr. wishes to thank the Carbon Old Timers' Association for the lovely flowers sent.

Snicklefritz-----

"I have only one request to make," groaned the college man who had come to work in the harvest. "What is that, Mr. Smart?" returned the farmer. "Please let me stay in bed long enough for the lamp chimney to cool off."

"Do you object to kissing, Mehitabel?"

"That is something I've never done, Joshua."

"Kissed, Mehitabel?"

"Objected, Joshua."

Said the doctor to his daughter: "Did you tell that young man that I think he's a hound?"

"Yes, father, she replied, 'and he said it wasn't the first wrong diagnosis you've made.'"

Employer: "Can you do the work?"

Applicant: "Work! Why I heard you wanted a freeman."

Young Lady (coming in with partner from room where progressive bridge is being played): "Oh, mummy, I've captured the booty."

Mother: "Well, my dear daughter, come and kiss me both of you."

Customer—"Are you the barber that cut my hair the last time?"

Barber—"No sir, I've been here only six months."

"Dentists should be cheerful." But they always look down in the mouth.

"What do you think of a husband who constantly deceives his wife?"

"I think he's a marvel."

Hubby: "The bank has returned that check."

Wife: "Isn't that splendid! What will we buy with it this time?"

"Somebody
to see you!"

IF EVERYBODY with something to interest you should come and ring your bell, what a nuisance it would be. Think of the swarming, jostling crowd, the stamping of feet on your porch and carpet! Every week we know of many callers who come to see you. They never lounge the bell—they don't take up your whole day trying to get your attention. Instead, they do it in a way that is most considerate of your privacy and your convenience. They advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In fairness to yourself look over all the advertisements. The smallest and the largest—you never can be sure which one will tell something you really want to know.

YES SIR!
WE APPRECIATE THEM

THE OTHER DAY WE ASKED A MAN FOR HIS PRINTING AND HE TOLD US:

"OH, OUR PRINTING DOESN'T AMOUNT TO MUCH. ALL WE HAVE IS A FEW SMALL ORDERS, AND NONE OF THEM EVER RUN INTO ANYTHING THAT LOOKS LIKE MONEY."

THOSE LITTLE ORDERS ARE THE KIND THAT MAKE OUR BUSINESS.

MOST OF OUR BUSINESS IS IN PRINTING LETTERHEADS, ENVELOPES, CIRCULARS, POSTERS, OFFICE FORMS, AND OTHER SMALL ORDERS.

WE APPRECIATE A SMALL ORDER AS WELL AS WE DO A BIG ONE.

SO, IF YOU HAVE ANY SMALL ORDERS FOR PRINTING, WE WANT YOU TO KNOW THAT WE ARE GLAD TO GET THEM. WE APPRECIATE THEM JUST AS MUCH—AND TAKE JUST AS GOOD CARE OF THEM—AS IF THEY ACTUALLY AMOUNTED TO HUNDREDS OF DOLLARS.

The Carbon Chronicle
